RESPONSE TO OFFICE ACTION

Assistant Commissioner for Patents
Washington, D.C. 20231

By facsimile

Sir:

This is in response to the Office Action issued by Examiner Hamud on June 17, 2003 in which a sequence election requirement (restricting apart the nucleotide sequences of SEQ ID NOS:1 and 5) was issued for the above referenced application. A Petition for a One-Month Extension of Time is submitted herewith, thereby extending the due date of the present response to Monday, August 18. Please charge the extension of time fee to deposit account 50-0970.

By way of response, Applicants hereby elect, with traverse, the nucleotide sequence of SEQ ID NO:1 (cDNA) for search and examination.

However, Applicants respectfully request reconsideration of the sequence election requirement set forth by the Examiner in the June 17, 2003 Office Action. In particular, MPEP §2434 specifically states that, "Nucleotide sequences encoding the same protein are not considered to be independent and distinct and will continue to be examined together." The cDNA sequence of SEQ ID NO:1 and the genomic sequence of SEQ ID NO:5 both encode the amino acid sequence of SEQ ID NO:3. Accordingly, Applicants believe that SEQ ID NOS:1 and 5 should not be restricted apart.

Respectfully submitted,

CELERA GENOMICS
